

L3 Diploma Personal reflection on my practical work

You are expected to evaluate each piece of practical work you complete in your projects. Use the questions below to help you.

Task 1 Presentation

Make sure you have photographed your work through the making process and create a gallery on your blog. Use a single image to present the finished piece of work as this will make it stand out.

Task 2 Evaluation

1. What was the task and what did you do?
2. What materials or software did you use?
3. What techniques did you use?
4. What problems did you encounter and how did you solve them?
5. What went well and why?
6. What could you do improve in the piece of work if you had more time?
7. How is your work similar or different to the artist you were looking at?
8. Do you think you have successfully interpreted the project theme through your practical work? If yes, how have you done this? If not, what could you do differently?
9. What are you going to take forward from this experiment, what will you do next?
