

## Jasper Johns Practical Task

- Draw a rectangle to fill your paper
- Using the Number shapes (on the back of this sheet) to inspire you draw 3 numbers, layered over the top of each other, look at the first image below you should be able to see the numbers 0, 2 and 3 drawn over the top of each other.
- Fill in each area using water colour choosing harmonious colours from the colour wheel, you should paint a block of colour in each section
- Then select 2 contrasting colours from the colour wheel and using colour pencil, apply shading to the painting. Make sure that the colour gradates for dark to light tone.
